Parisa Rafiee

Quantitative Methods Researcher in Behavioral and Health Science

Department of Computer Science & Statistics · Department of Psychology · University of Rhode Island

Email prsrafiee@uri.edu Web parrafiee.github.io LinkedIn /in/parisarafiee GitHub ParRafiee Scholar scholar.google.com

PROFILE

Ph.D. candidate in Behavioral Science (Quantitative Methodology) and M.S. student in Statistics specializing in longitudinal data analysis (including intensive longitudinal data and randomized controlled trials), multilevel modeling, missing data analysis, and survival analysis. Experienced in developing and evaluating likelihood-based and Bayesian methods through large-scale simulation, and in applying them to clinical, biomedical, and behavioral health data with reproducible R workflows.

SKILLS

Methods	Longitudinal modeling, multilevel / mixed-effects models, missing data analysis, survival analysis, structural equation modeling, Bayesian methods, Monte Carlo simulation
Programming	R (advanced), SAS (intermediate), Mplus, SPSS
Workflow	Modular R functions, simulation pipelines, result validation, R Markdown
Data	Clinical and health data, RCTs, intensive longitudinal / EMA data, time-to-event data

EDUCATION

Ph.D., Behavioral Science (Quantitative Methodology) — Expected 2027
University of Rhode Island
Dissertation: Evaluating the Effect of Person-Level Covariates on Average Rate of Change: Quadratic Growth Models with Covariate-Dependent Missing Data

M.S., Statistics — Expected 2027
University of Rhode Island
Thesis: Sequential Modeling and Maximum Likelihood Based Inference of Interval-Censored Data

M.A., General Psychology — 2021
Tarbiat Modares University, Tehran, Iran

B.S., Chemical Engineering — 2018
University of Tehran, Tehran, Iran

EXPERIENCE

Statistical Research Intern — 2025 – 2026
Brown University Health · BERDI Program

- Contributed to biomedical and clinical research projects involving health outcomes and longitudinal data
- Provided statistical programming support for data cleaning, analysis, and reporting
- Collaborated with clinicians and researchers to translate research questions into analytic strategies

Research Assistant
2022 – Present

University of Rhode Island, Kingston, RI

- Developed large-scale simulation frameworks in R to evaluate statistical methods under complex missing data mechanisms
- Built reproducible end-to-end workflows covering data preprocessing, model fitting, diagnostics, and result summarization
- Implemented systematic checks to validate model output across thousands of simulated datasets
- Wrote modular, reusable R code to keep analytic pipelines extensible and transparent

Quantitative Consultant
2022 – Present

Quantitative Consultation Center, University of Rhode Island

- Provide methodological and statistical programming consultation on research design and analysis
- Support theses, dissertations, grant proposals, and peer-reviewed publications
- Lead workshops on structural equation modeling, multilevel modeling, and longitudinal data analysis

Teaching Assistant, Statistical Programming & Methods
2021 – Present

University of Rhode Island · PSY 200, STA 308, PSY/STA 532, PSY 533

- Support instruction in statistical programming and quantitative methods for undergraduate and graduate courses
- Help students with R-based analysis, debugging, and validating statistical results
- Develop reproducible examples and workflows for teaching applied statistical modeling

MANUSCRIPTS UNDER REVISION

Pauley, E., **Rafiee, P.**, & Yang, M. (revise and resubmit). Handling incomplete covariates for estimating average treatment effects in randomized controlled trials. *Multivariate Behavioral Research*.

PRESENTATIONS

2026 **Rafiee, P.**, & Yang, M. Comparing growth models for assessing covariate effects on the average rate of change in longitudinal studies with missing data. Poster to be presented at the *Modern Modeling Methods Conference (M^3)*, New York, NY.

2024 **Rafiee, P.**, & Yang, M. Evaluating the effect of change on change in cross-domain latent growth curve analysis with missing data. Oral presentation, *Modern Modeling Methods Conference (M^3)*, CT.

2024 **Rafiee, P.**, & Yang, M. Cross-domain latent growth curve analysis in the presence of missing data and small samples. Poster, *Society of Multivariate Experimental Psychology (SMEP)*, Ithaca, NY.

2024 **Rafiee, P.**, & Yang, M. Handling missing data in cross-domain latent growth curve analyses. Poster, *American Psychological Association Annual Convention*, Seattle, WA.

2024 Stamates, A. L., Todaro, S. M., **Rafiee, P.**, Sherman, A. L., Yang, M., & Lau-Barraco, C. Using ecological momentary assessment to understand contextual factors associated with heightened impulsivity and alcohol use. Poster, *Research Society on Alcohol Annual Meeting*, Minneapolis, MN.

2023 **Rafiee, P.**, Pauley, E. M., Rothstein, M. C., Stamates, A. L., & Yang, M. Daily associations of emotion and fatigue in college students during the early stages of the COVID-19 pandemic: An application of dynamic structural equation modeling. Oral presentation, *Modern Modeling Methods Conference (M^3)*, CT.

2022 Pauley, E., **Rafiee, P.**, Rothstein, M. C., Yang, M., & Stamates, A. L. Drinking motives and alcohol use behaviors during the early stages of the COVID-19 pandemic. Poster, *New England Psychological Association (NEPA)*, Worcester, MA.

AWARDS

2024 **Travel Award**, Society of Multivariate Experimental Psychology

2023 **Morton Deutsch Award for Best Paper**, *Social Justice Research*
